**DETAILED ACTION**

***Election/Restrictions***

1. Claim 1 is generic and allowable. Accordingly, the restriction requirement as set for in the Office action mailed on 02/04/2010 as to the encompassed species is hereby withdrawn. Claims 14-19 directed to the other species are no longer withdrawn from consideration since all of the claims to these species depend from or otherwise include each of the limitations of an allowed generic claim. All claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined.

2. Claims 1-19 are allowed.

3. The following is an examiner's statement of reasons for allowance: none of the prior art of record alone or in combination teaches an applicator comprising a fluid occlusion element receiver at least opposing the end portion of the fluid occlusion element; a hollow-formed see-through front barrel to be attached to an opening of the rear barrel; an essentially transparent detection tube inserted in the front barrel; a joint core supported by the detection tube and put in contact with the fluid occlusion element; and a pen core, supported by the detection tube, spaced with a clearance from, and opposing, the joint core, and exposed from the front barrel.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
